

To Whom It May Concern:

K-Love 89.1 is my local radio station. I know that each year it is a struggle to raise enough money to support this station, but each year it is supported. I feel that a LPFM station would infringe on my rights to listen to what I choose. If I wanted to listen to another station, I wouldn't be paying to keep this station running. There is not another local station like K-Love. If it were changed or biased in anyway, it would be another station.
